## CUSTOMIZED ELIXIR

Each person is unique and feels their own emotions.

The emotional state changes regularly; it may be affected by the environment, lifestyle, level of stress or fatigue.

It is therefore necessary to adapt to permanent changes.

The customized elixir makes it possible to provide a personalized response to the emotions experienced.

■ We have been making these elixirs with organic Bach flowers for many years, following literally the indications left by Dr. Bach. Each bottle is handcrafted on demand.

■ It is intended for immediate use, this is the reason for which we realize custom-made with spring water, alcohol-free.

■ If the bottle may be exposed to heat, you can add the value of a teaspoon of cognac or brandy to help conserve water.
